

Submitter: Melissa Scofield

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I have lived in Oregon my entire live. 4+ generations have lived here and thanks to the last several politicians and lawmakers irresponsibilities and mismanagement of practically everything. My only future plans are when to sell my house and move to another state. You are making it impossible for people like me, simple middle class every day individuals to plan their retirement in the State where their friends and family currently reside. Not only can we not afford to stay here but, it's also not safe anymore.
