

Submitter: Susan Northern

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB 2025 is not a wise choice for funding for Transportation and infrastructure improvements. Increasing taxes, fees, and adding additional charges is a burden for ALL Oregonians. The only thing accomplished is to make our state less affordable and cause more businesses to close and/or relocate to other states. Please for the sake of all of us, DO NOT move forward with HB 2025. You can do better for Oregon. No more waste. Oregon is much more than Portland Metro. Please don't strangle us with increased taxes & fees.
