On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Dear Joint committee on Transportation Members: I oppose this transportation package which adds burdensome new taxes on Oregonians when we are all reeling from the high costs of groceries and utilities. We cannot afford the taxes propose din this measure. Please go back to the drawing board and come up with something that does not add so many new taxes. Thank-you for considering my concerns.
