

Submitter: Eliana Mullis

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a lifetime resident of the state of Oregon, I strongly oppose HB 2025. The cost of living in this state is already significantly higher than the majority of the United States. Increasing taxes on payroll, gas, vehicle registration and more will only continue to make Oregon less affordable for longtime residents. Personally, I am disgusted with the sheer mismanagement of my tax dollars by the state, and I want to see the problems within the state budget addressed and corrected before I would ever be willing to consider sending more of my hard earned money to the state government.
