House Committee On Rules

Measure, Appointment or Topic:

SB238

I'm writing to express deep concerns and opposition the SB 238. I heavily oppose law enforcement be using drones to surveil or police citizens in any context. This can easily overstep and infringe on our right to privacy and fair treatment/due process by law enforcement. Drones are expensive investments in technology that only increases militarization of the police, which under no circumstance do I support as a tax payer of this state. That money can be used more effectively in increased training for officers. Body cams already capture footage and are sufficient utilization of video technology.
