Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Why is it that our State government continues to spend more than it takes in and then raises taxes to make up for mismanagement? Stop spending money we don't have! The residents of our State have had enough of new taxes, fees and irresponsible spending. It's about time Oregon starts to look at Waste, Fraud and Abuse in Oregon and stop asking for more from those of us that have to pay for it.
