To the elected Body. Why is it so easy for you to impose these taxes on us as we have struggled for 4 years? Being retired on fixed income and the inflation . You have granted higher energy rates and power bills have doubled even though all of the solar cars and wind mills were suppose to keep energy affordable. You have Sr's living on SS alone who now are on food stamps. Do you want ore people in public assistance ? Because this is exactly what will happen! This State has been destroyed in the past 30 years and only a few can afford to live in this State! Poverty with a view! These Tax proposals are out ravenous and the Government needs to start cutting budgets and laying off non essential workers!
