Leadership in the state of Oregon is out of control.

I am an Independent who is fed up. My family can't afford to tighten our belts anymore than we already have.

I live near Salem - the streets are filled with drugged out homeless people. Common sense laws are not being enforced, endangering us all.

The governor is ignoring well over half of her constituents - forcing DEI requirements that discriminate and endanger our children. And, now you want a billion more dollars?

NO. NO. NO.
