

Submitter: Delaney Thompson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I support HB 2025. As someone who uses our transportation networks as a bicyclist, pedestrian, and driver, I appreciate and support increasing funding for improving, maintaining, and increasing our transportation networks throughout Oregon. In particular, I support increased and continued funding for active transportation options, as well as for transit agencies throughout the state.
