Measure, Appointment or Topic: HB2025

I strongly am against this outrageous transportation bill HB2025. First of all Oregonians can not even afford another gas tax on what we already have ow. We are the highest in the country already just ridiculous. Do you democrats ever think about the citizens instead of stuffing your pockets. This is not California. People are selling and moving out of here you've taxed everything beyond imaginable. I have lived here almost 50 years and because of you liberal politians have turned Oregon into a sesspool of homeless, druggies and crime. Its unbelievable what this state looks like from all the garbage everywhere and it never ever looked like now. It's disgusting that the greed of the democrats in the capital has caused this once a beautiful state into a sesspool of corrupt idiots who dont care about the citizens of Oregon. We need leaders who care about what happens in the state. No more taxes period. There's a reason the people voted in measure 5 and 50 to stay a fixed rate forever for property taxes back in 97. This is the reason to protect us from these kinds of unconstitutional laws you all try to push for your own agenda. Time to hold ODOT accountable for the money they've wasted . Quit trying to always get it out of us taxpayers. Oregon is already loosing people moving out of here and businesses can't afford the high costs. Pretty soon there wont be the people here anymore to even pay your high dollar taxes then who you gonna call to bail you out. For once do the right thing and vote this crazy bill down. Think of the people for a change if that's even possible. Thank you
