

Submitter: John Andrews

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Why are you willing to raise all sorts of taxes on the citizens of this wonderful state? We don't have deep pockets. Most of us are barely scraping by. Focus on using the money have wisely and quit throwing my money and your money at something that you don't even know will work. There needs to be accountability in state government and not a blank check to spend willy nilly on a dream list. Invest in your the people of Oregon and most of all, let us decide if we want to pay more taxes. AND LEAVE OUR KICKER ALONE!! that was voted on by the people. You should not have the power to override what the people voted in, unless it's unconstitutional. Put these increases on the ballot and not force it down our throats. That's tyranny and not choice.
