Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon's transportation package is an opportunity to invest in what matters most to our communities: safe streets, clean air, and reliable transit. To truly deliver for all Oregonians, including the 30% who don't or can't drive, we need a package that prioritizes access, equity, and sustainability.

I love being able to live in a community where I don't have to drive to get where I need to go. Biking and walking to work, the grocery store, and friends houses makes me feel alive and connected to my community.

In a climate emergency, we must mobilize all potential avenues for keeping our air cleaner and our climate pollution lower. Funding for transit and biking infrastructure enables more of us to use low-carbon transportation options and breathe cleaner air.
