

Submitter:

Chandan Kundapur

On Behalf Of:

Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

No more taxes. You continue to increase taxes in the name of basic services through multiple means every year. You have a money management problem. Not a budget problem. Stop funneling money to further drug addiction and voluntary homelessness. You are incentivizing harmful community behavior using our tax money. Use that money to solve these real community problems instead. And to top it all, we don't even feel safe when we board the transit or commute downtown. We need to feel more secure (read more police), improve the business environment downtown. NO to MORE TAXES.
