

Submitter: Beth Stout

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I support H.B. 2025 and its funding for public transit. I am 74 and live in downtown Portland. Although I have a car, I will be giving it up next year and will be reliant on MAX, buses, and the downtown streetcar to get around. It would be devastating to lose the option of public transportation! There are many others who, like me, have come to depend on transit. Even though I still have a car, I use Tri-Met whenever possible instead of driving. Cities need to move people and Portland is no exception! This is a very important issue to me.

Thank you, and vote YES!
