

Submitter: Julia Kightly

On Behalf Of: Self

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a road user in the state of Oregon i want better roads but am failing to see how this bill will actually help me. All I really see is a significant increase in cost for each and every Oregonian without a corresponding benefit. ODOT is still poorly managed and there are already existing measures that should be overseeing their programs but apparently are doing that oversight. Looks like we are taking money to create more bureaucracy without good oversight and will still be in the same hole in 5 years from now.

DO NOT PASS THIS BILL.
