This is a ridiculous idea! Oregon is becoming the worst state to live in, and these kinds of bills are the reason why. Leadership needs to get a grip on its spending, figure out how to live within your means and stop these disastrous policies. The homeless situation is out of control, and now we want to tax citizens beyond their abilities to pay?

Where is accountability for the money that is already collected? Stop the ridiculous policies that do not serve all Oregonians, and maybe there would be enough money to fix our roads and build new ones.
