

Submitter: Bill Sproull

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Strongly oppose an increase in transportation costs to Oregonians via gas taxes or registration fees. This is regressive and impacts middle and lower income people disproportionately.

The State should focus on cutting costs and increasing efficiency in providing essential services. No tax/fee increases.

Please kill this bill.

B. Sproull
