

Submitter: Trudy Gregory

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose any bill that raises taxes on Oregonians.

We are currently being taxed into poverty as it is. As our elected officials your job is to protect and do what is best for your constituents and this session is showing how out of touch you are as we are drowning in taxes and are trying to just hold on to what little money we have left after getting gas and groceries.

Stop what you are doing to the tax payers and figure out how to live on a budget like your constituents.

NO MORE TAXES!!!!!!!
