On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Public transit is a critical function of our state government. I rely on public transit in my day to day life, a reduction in service leaves behind the most vulnerable in our community. If anything we should be looking for opportunities to increase public transit services. Reliable public transit reduces congestion in cities, improves air quality, and expands freedom of movement, both social and literal, to a wide swath of the population who does not drive a car, be it by choice or necessity.
