

Submitter: Teresa Roberts

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My name is Teresa Roberts. I am a registered voter and a citizen who lives in Carlton, Oregon. I strongly oppose any local and state tax increases, especially since I do not see my hard earned tax dollars being used to better Oregon. Currently we have one of the highest crime rates and homeless populations and our education system is failing our children. My once beautiful state has become an unsafe, dirty, and dangerous place to live as well as one of the highest priced on cost of living. Please do not drive more families and businesses out of our state by raising the taxes even more. We do not need more bike lanes when our roads are in shambles. We do not need more parks and green spaces when our police are stretched so thin due to defunding and cannot protect the public. Please stop taxing your citizens and do the job you were hired to do, which is serve ALL the citizens of Oregon so we may have the quality of life we deserve. Thank you for you time.
