Measure, Appointment or Topic: HB2025

I strongly urge the Oregon Legislature to kill HB 2025. Citizens cannot afford the huge tax and fee increases instituted by this bill. As a retired Oregonian, I strain to make do each month, and to pay my property taxes on my house once a year. Given the excessive increases in the cost of living over the last few years, retired Oregonians especially simply cannot afford the tax and fee increases this bill would dump on us.

I respectfully urge you to vote no. Kill HB 2025.

Thank you for considering my opinions, and for recognizing my plight.
