Measure, Appointment or Topic: HB2025

I strongly oppose this bill. Oregonians do not need to be paying anymore taxes especially for ODOT. We need leadership that can balance a budget without raises taxes. It is possible and the Republican representatives are working hard to prove that. The next generation of Oregonians are not going to have a fighting chance to live and thrive here in Oregon if you continue to tax there parents and grandparents who work hard and pay income taxes already. My husband and I own our own businesses and this would be one more unnecessary burden for our family. It could contribute to us moving out of Oregon.
