Measure, Appointment or Topic: HB2025

The lack of competent management of the DOT is evident. Our elected officials are unable or unwilling to hold the DOT accountable for the shape that our transportation systems are in and this is something that has not happened overnight. Throwing more money at the problem is the only solution that our political elite know in trying to address a problem. We need to get rid of those that have allowed this to develop for YEARS! The only solution our politicians know is to tax and spend. Guess we deserve what we elect!
