

Submitter: Peche Barteaux

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Why do democrats and liberals want to increase taxes on gas just as President Donald Trump-works so hard to lower gas and taxes for Americans? It was not done to provide you crazies a cash grab. Our criminal government, congress and senate can't even provide accurate checks and balances for monies provided by tax payers now. You think we are going to give more access? Get out here with that crap. Fix our schools, provide proper education, fix the still broken pot hole riddled roads throughout PDX. Do better then you can ask for more money. Provide us with audits of each school district, of every state government office, specifically OED because that system is 100% broken, update the SS system to spell long names. Like enough is enough with the bite ratio excuses.
