

Submitter: Cynthia Vogt

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Right now, anything impacting Oregon Citizens with additional taxes or fees is irresponsible. We already pay more than most states. I have family leaving this state due to the failure of this and the previous leadership to address the needs of the citizenry rather than finding ways to get more revenue. It's been a long time since this state has felt like our needs are being considered let alone met. Take! Take! Take! Safety, education and the ability to get from one paycheck to another aren't even on your radar.....if I could afford to move, I would and so would the rest of my family. Stop the spending, stop the waste, stop lowering the standards. Do what you were voted to do.....make this state livable and the taxpayers feel they get something for the money spent.

Thank you for this opportunity to weigh in.
