

Submitter: Elizabeth Madsen-Richards

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

What are you thinking? Not only do we have higher gas prices than many other states, you are trying to increase them. Also, the registration fees and licensing fees are high enough. No more increases! HB 2025 is absurd. Do not do this! I'm telling all of my friends and keeping track of those who vote for it! Get a clue about the people who live in this state and there needs.
