

Submitter: V Stenerson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

We're struggling week to week as it is. We're taxed more than most any other state and we can't take on the burden of our officials shortcomings financially when it comes to management of what we already give. Please stop and really think about who you're hurting with these proposed taxes. You're going to tax yourself out of residents and future residents. No one wants to stay or move to a state that they can't afford, no matter how beautiful it is. I strongly oppose any increase in taxes. Find another way.

Respectfully,

A broke middle class resident
