Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Over time it is a fact prices go up. I have worked since I was 12 in order to earn enough money to have a roof over my head, food and enjoy some hobbies. My lifestyle is not extravagant. I understand the need for taxes to help our community grow and maintain infrastructure. However, enough is enough! Every government entity has their hands out and are increasing fees and taxes. I don't have access to mass transit and my work is too far to walk or ride a bike to. I am paying for these services, plus higher taxes and fees for my car. My income is not keeping pace with the cost of living. Another frustration is watching how taxpayers money (for roads and infrastructure projects) is wasted by the state. For these reasons I oppose HB2025. Government needs to be more efficient, effective with the current amount of taxpayer money.
