Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

TriMet is my only mode of transportation. I am 78 years old. In addition to myself, I am able to use transit to pick up my granddaughter from school once a week. It's a two hour commute what with transit and wait times. Without transit I would be unable to have important time with my Grand. TriMet customer service is invaluable in helping plan a trip. I moved to my current location from out of state and one of the main reasons was fast, reliable, affordable transit. We need TriMet to keep moving our city forward.
