Having lived and worked in Oregon all my life and now on limited income and Diesel at near 4\$ a gallon I oppose any new gas taxes. Figure out a way to fix our roads and infrastructure with the money you have, cost of living is already through the roof.

We are taxed to the limit here in all ways for so many permits a liences. Bring a vote to the people I'll bet it would lose. Listen to Christin Drazen on this one. Thanks for allowing my comments.
