

Submitter: Kenneth Gerig

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am strongly opposed to HB2025. The Department of Transportation has serious problems with mismanagement and misdirection of funds. Oregonians do not need to bail them out with increased gas taxes, increased fees, and a plethora of new taxes and fees. Oregon already has some of the highest gas taxes and automotive fees in the nation and we cannot keep putting working Oregonians on the hook for the government's fiscal irresponsibility.
