

Submitter: Sue Craig
On Behalf Of: Oregon Unitrinal Universalist Voices for Justice
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

We as a faith based organization are pleased that so many safety issues have been addressed in this Bill. However, we hope you will find a way to include the climate issues which need to be addressed by transportation. These unfortunately are not included. It is our hope that you will think of the future of our generations to come as you work so hard to help the people of Oregon. Thanks for all the work you do.
