

Submitter: Darlene Huckaby

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please think about the state. This goes through and we will not have anyone living here and no businesses coming here or staying here because no one will be able to afford to live here. We won't even be able to take mass transit because it will cost too much. This will not force people to buy battery operated cars. Because we can't afford them or the insurance on them.

When will you people start thinking about the people you represent and not your own pockets. Think about our children and their children. Before you totally lose your mind.

Thank you for your time
