On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a retired senior citizen I am concerned about this bill raising prices on fuel and vehicles. Many of us are being taxed out of our homes by things like these. While fuel prices are lowering nation wide not so in Oregon and a few other states that keep raising taxes on fuel and other things. Think of what this does to many struggling Oregonians. We will remember which party did this to us at election time. It is long past time to think of struggling taxpayers when trying to add more on us. Vote no.
