Committee:

House Committee On Rules

Measure, Appointment or Topic:

SB238

This bill is a huge violation of privacy and should not be passed. Police can already use drones in emergency situations or with a warrant, so further use of this technology without limit is a scary possibility, especially with the rise of authoritarianism in this country. I do not want to be spied on by the police/authorities and would hope my privacy is not infringed on in this way.
