

Submitter: janet rueger

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Many of us are already financially stressed and barely able to pay rent and food. We canNOT afford more taxes. We must drive to and from work, especially those of us who are partially disabled - cannot carry a water bottle to work and lunch food, on a bus. Please decrease government costs. Individuals must live within their means. You, the legislature are not giving us money to pay our "extra expenses" Oregon may need to stop paying for health care for illegals. Support those of us who have been paying taxes, working in Oregon / in the US, legally. Governments must also live within their means.
