Measure, Appointment or Topic:	SB243

Those persons who support the ban on the prohibited trigger systems have no clue as to how a semi-auto or self loading firearm functions. But without a way to legally get rid of them what do you think will happen to them? I don't think you have thought this through and the consequences. Therefore I am opposed to this part of the bill and I ask that you give a know vote.

In regards to the restriction on concealed carry in this bill I will say that it has been over 40 years that I have carried, sometimes in the very places (accept for courthouses) you are now banning. I don't know of any problems with carrying in the Legislature and other places. If there were, I know the democrats would be yelling from the roof tops. After reviewing my copies the Parkland and Uvaldi and the incompetent clowns that violated protocols by blocking open doors etc, I will suggest that you start installing metal detectors. CHLs obey the laws, school shooters don't. Why one would think that a school shooter would obey the law is beyond common sense. If you legislators have metal detectors shouldn't you pay for them and security for others so that they can enjoy the same safety as you door are you better than the rest of us. SB 243 won't make us safer. Having said what I said here, you now know why I oppose this legislation and am asking for you to vote no on this bill.
