Oregon citizens have continually voted down sales tax and tolls, yet here we are AGAIN! Citizens cannot afford to continue to increasing taxes, especially in this economy. Where does our money even go? Nothing is completed, but we're asked for more and more every election. When that is voted down, bills such as this are presented and passed behind our backs. You are elected to be the voice of the citizens, but you don't listen to US. Do the right thing here and listen to the people.
