Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB2025 and am very disappointed in the impact this will have on the limited funds many of us live on each month since this is imposing more taxes on Oregonians who will see very little benefit from it especially in the rural areas. The tax on diesel will also impact the cost of goods for Oregonians as transit costs will be higher. These bills and others will make it very difficult to make ends meet. on this state. So unfortunate you are not looking for ways to reduce taxes for struggling families.
