

Submitter: Cindy Fincher

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Not only should ODOT be audited..which they already are subject to audits. When they FAIL an audit they should not be given additional monies for the next budget cycle. No additional funding until they can budget properly they have failed Oregonians and so have the elected officials who keep giving them more money! They were given millions in 2017 for the Rose Quarter project and did not complete it. The elected officials want to tax us more and pretend like nothing happened. You are failing Oregonians at every turn.
