Measure, Appointment or Topic: HB2025

I strongly oppose this bill. I as a Salem resident are already facing higher taxes, just from the recent tax being implemented. I can't afford to pay more. My family has deep roots here and it's getting more difficult to live here with the government stealing our hard earned wages. I work hard for my family, I want to decide what to do with my earnings. You all who want to take more from us are not good with managing other people's money. You are not entitled to take more of it!!! Stop feeling like you are entitled to just take more from us. The middle class is shrinking, your largest tax base. Stop stealing from us!! We can't take it anymore!
