

Submitter: John Kelly

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

We need to know how the money they already had disappeared before taxing our society into massive collapse to cover their embezzlement, and idiotic priorities. The leadership in Oregon has a 100% disconnect from the reality they made for everyone with their thoughtless, wasteful spending, and idiotic priorities (empty bike lanes, the speed bump industrial complex, and empty public transit before cars) We still have no figures on how much was wasted on the cat statues they auctioned off to their friends to cheat the children's hospital out of millions, and they want this huge blank check? Giving them a ridiculous amount of money to embezzle without knowing how they took the funds they already had, and solid written plans on how the money will be used down to the penny is nuts. The one thing the current Oregon leadership has taught us is they can't be trusted with money.
