

Submitter: Julianne Maguire

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a 88 yr. old senior lady. I reside near the Elmonica TC. I have physical disabilities that include vision & walking issues. I can no longer drive. I have family members that look forward to my visits and I could not travel without Trimet. I short time ago, I was recovering from surgery and applied for Trimet Lift services. Trimet has been a life changer for me. I have found, once a location is identified, Trimet can help me get there. I believe the maintenance and/or improvements to this public service is beyond measurement. Hopefully, society will become even more aware of the hazards of automobiles and appreciate the value of Trimet. Sincerely, J. Maguire
