

Submitter: Jim Binder

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a life long Oregonian who is embarrassed about where this state is headed. We have a governor who is so out of touch with what we, the people, need or want. We do not need any new taxes to continue to fix roads or keep public services. We need you to live within the budget you currently have and use the money that you already receive through our taxes. Your income has doubled, mine has not and yet you want more. I say enough! Live within the budget you have. Leave our kicker alone. And, stop taxing people out of this state.

As a piece of advice, look at how red this state showed during trumps election. You don't have the majority of the state behind you. We are behind a balanced budget and no more over spending. Time to wake up and do your job!
