On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please stop taxing us. Instead stop spending money. Seniors are unable to pay their bills because you keep raising taxes and fees. Stop giving out what you call free cash to everyone. There are businesses looking for employees but when they hire them they don't show up and keep collecting unemployment and welfare. You can cut different budgets and not raise taxes or fees. How about not getting new furniture at the capitol and other agencies and keep you furniture for 10 to 15 plus years like other agencies do to save money. Yes I did work for a government agency and saw the waste.
