On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Governor Koteck,

I oppose any new taxes or tax hikes. This new bill just raises the cost of living on our middle class citizens. I think that you and our governing body need to start cutting wasteful spending. The taxes that we already should be more than enough to handle all of the infrastructure, Fire fighting, and unexpected expenses of the state. If you look at other states in the US. They are capable of doing far more with substantially less in taxes. We are at our breaking point as tax payers and you still keep asking for more. If you cannot balance the expenses with what you already receive then you need to make cuts to the wasteful spending in our state. I VOTE NO ON HOUSE BILL 2025.

Local resident,
Steven Todd
