

Submitter: Angela Munkers

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am part of a lifelong Oregon family and worked for 30 years in various government roles. This current environment of raising fees and taxes at every turn is killing all Oregonians. The focus on special interests rather than basic infrastructure and basic needs is very evident in this Legislative Session. I DO NOT SUPPORT this bill - VOTE NO! Oregon agency heads ALWAYS ask for more money, rather than actually manage the funds allocated. This Legislature was elected to problem solve, but sadly it appears that is not happening this session.
