

Submitter: Terry Brooks

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am completely opposed to this measure that adds taxes to an already overtaxed community of citizens of Oregon. We are barely able to make our households stay afloat and what this state bill will do is sink our economy and push many citizens into poverty.

It should be mandatory that such tax proposals of this nature should be out before a vote of all citizens.

Use common sense and do not allow this bill to be passed.

If it does, all of my energy will be to change the direction this state is going.
