

Submitter: Robert Johns

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

To The Joint Committee Transportation Reinvestment, I oppose this bill knowing the tax burden it will put on the people of Oregon who are already facing financial insecurity. As a fifth generational farmer this puts a major risk to the ability to have a return on investment. My hope that the Legislature's who propose these new taxes face the real truth about the cost of HB 2025.
