

Submitter: John Karr

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I think an audit of the transportation Department is overdue. I also believe the divisions within should account for their expenditures. The use it or lose it way of managing funds is not in our interest. Our fuel prices here in Oregon right now are about \$1.00 per gallon than the prices around Austin Texas. I am very opposed to any more increases in fuel taxes. John KarrpKarrp
